

The Automated External Defibrillator (AED) Project

Caring for our Community

Rotary District 9510
is partnering with
Greg Page and
Heart of the Nation
to bring this program
to our local
communities

What is an AED ?

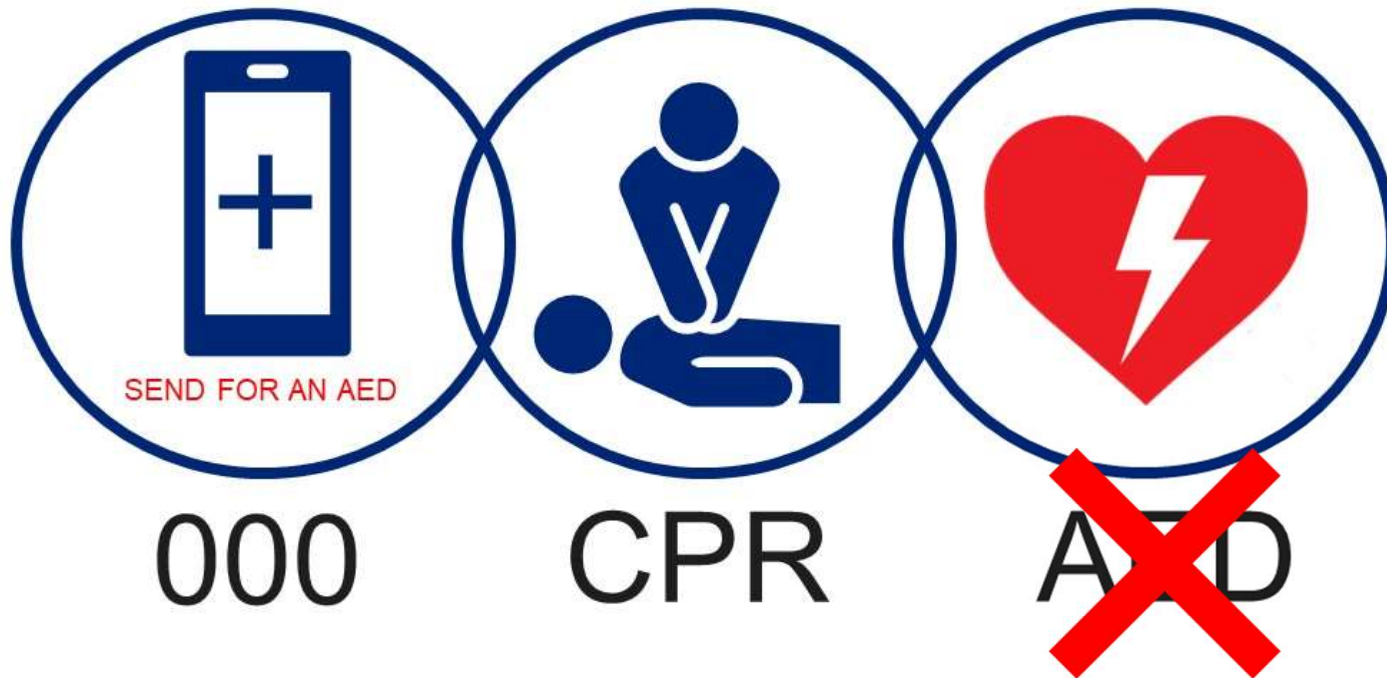

(Automated External Defibrillator)

- An AED is a device which is placed on a person who has had a cardiac arrest.
- Use of an AED within the first three minutes of a cardiac arrest has shown to improve lifesaving outcomes of patients from 10% up to 70%.
- The AED is used to deliver an electrical shock to the patient's heart in an attempt to "restart" normal, spontaneous electrical activity within the heart.

CALL PUSH SHOCK

THE MISSING LINK IN THE CHAIN

What is the problem that needs to be addressed?

- Raising public awareness.
- Finding the AEDs in the community
- Having them accessible to the general public
- Registering current units with Heart of the Nation to make them visible on the Heart of the Nation App.

How can Rotary help?

- Get out in your community to find the AEDs that already exist
- Fund raise to purchase AEDs for your community
- Spread the word and encourage Community Groups, Sporting Clubs, Businesses and the community to purchase an AED

HAVE AN AED?
TAKE THE PLEDGE TO ENSURE
IT IS KEPT

VISIBLE **ACCESSIBLE** **ACTIONABLE**

It costs nothing to join! Membership is free, and we provide you with stickers to show the nation you are committed to preventing sudden cardiac death.

- There are several ways your club can be involved and make a real difference.
- Become a Heart of the Nation Champion
- Locate existing AEDs in your community – put the word out and get help from community groups and individuals to be involved in this task.
- Talk to the owners and encourage them to join the program and have their units accessible to the general public
